EDUCATION

Bachelor of Science in Computer Science

2022 – Present

Eulogio "Amang" Rodriguez Institute of Science and Technology

- Relevant Coursework: Data Structures & Algorithms, Machine Learning, Web Systems, Software Engineering, Database Management
- Capstone Project: DeepFake Audio Detection System using Convolutional Neural Networks — achieved 90% accuracy in both training and testing phases

TECHNICAL SKILLS

Frontend Development: ReactJS, Vite, Tailwind CSS

Mobile Development: Flutter, React Native, Expo

Backend Development: Node.js, Express.js, Flask

Machine Learning: TensorFlow, PyTorch, Convolutional Neural Networks (CNN)

Databases: MongoDB, PostgreSQL, Firebase, Supabase

Tools & Technologies: Git, GitHub, Vercel, Firebase Authentication, Postman, Socket.IO

PROJECT EXPERIENCE

DeepFake Audio Detection System | Capstone Project — EARIST

2024 – Present

- Designed and trained a Convolutional Neural Network (CNN) to classify AI-generated speech from authentic audio using spectrogram analysis, achieving 90% accuracy on both training and test datasets
- Built a real-time audio classification pipeline integrating a React frontend with a Flask backend API
- Implemented a responsive, dynamic user interface enabling live deepfake audio detection with visual feedback

Go Parent | Cross-Platform Parenting Mobile Application

2023 – 2024

- Developed and deployed a cross-platform parenting application using Flutter, supporting Android, iOS, and Web environments
- Implemented full CRUD functionality for schedule creation, management, and organization with persistent data storage
- Designed an intuitive, responsive interface focused on accessibility and ease of use for parents

CleanComm | Barangay Community Reporting System

2023

- Engineered a web-based community reporting platform enabling residents to submit, track, and manage barangay-level reports
- Implemented role-based user management with secure CRUD operations for report data and resident profiles
- Designed system architecture to support multi-user access with real-time updates for barangay administrators

CERTIFICATIONS & PROFESSIONAL TRAINING

CompTIA A+ Certification | CompTIA — Trainee

2024

- Demonstrated foundational knowledge in IT support, hardware, networking, operating systems, and troubleshooting across diverse environments
- Currently preparing for and sitting the CompTIA certification examination — April/May 2025

Infosys Training Program | Infosys — IT Training (In Progress)

2025 – Present

- Enrolled in Infosys' structured IT training curriculum covering enterprise software development practices and industry-standard tools
- Gaining exposure to professional development workflows, agile methodologies, and enterprise-level system design
- Actively contributes to open-source projects on GitHub; maintains personal portfolio of full-stack and ML projects
- Member, Computer Science Society — Eulogio "Amang" Rodriguez Institute of Science and Technology
